Project Design Phase-I

## Solution Architecture

Date	28 october 2023
Team ID	NM2023TMID05943
Project Name	Blockchain Technolgy for Central bank smart contract
Maximum Marks	4 Marks

Solution Architecture:

Solution architecture is a complex process – with many sub-processes – that bridges the gap between business problems and technology solutions. Its goals are to:

Solution Architecture Diagram:

Prerequisite

1 download node.js : Node.js

2 download vs code: **Li4nk**

3 download metamask : <u>https://metamask.io/</u>

Steps to complete the project

Step 1:-

1. Open the Zip file and download the zip file.

Extract all zip files **Step**

2 :

1. Open vs code in the left top select open folder. Select extracted file and open . 2.

Select the contract.sol file and copy the code.

3. Open the remix ide platform and create a new file by giving the name of ehr_using_blockchain.sol and paste the code which you copied from vs code.

4. Click on solidity compiler and click compile the ehr_using_blockchain.sol

5. Deploy the smart contract by clicking on the deploy and run transaction.

6. select injected provider - MetaMask. In environment

7. Click on deploy. Automatically MetaMask will open and give confirmation. You will get a pop up click on ok. 8. In the Deployed contract you can see one address copy the address.

9. Open vs code and search for the connector.js. In contract.js you can paste the address at the bottom of the code. In export const address.

10. Save the code.

Step 3:

open file explorer

1. Open the extracted file and click on the folder. 2.

Open src, and search for utiles.

3. You can see the frontend files. Select all the things at the top in the search bar by clicking alt+ A. Search for cmd

4. Open cmd enter commands

   npm install

   npm bootstrap

   npm start

   npm install --force

   npm install -g truffle truffle migrate

   npm start

5.It will install all the packages and after completing it will open {LOCALHOST IP ADDRESS} copy the address and open it to chrome so you can see the frontend of your project
